

Lenino's JACK RABBITS

The board game for playing cards
on a quest through wonderlands

Video tutorial

GOAL OF THE GAME

Visit royals on their land
traveling from turn to turn.
Be the first to have at hand
3 of their cards and return.

Things you may do in a turn:

- Move to another hex tile.
- Buy the royal of the hex.
- Get a new card from the pile.

This green section's all you need for your **FIRST GAME** to succeed.

MOVING YOUR RABBIT

From the hexagon it's on,
take your rabbit on a road
through all the tiles it traverses.
As the rabbit hops and treks,
it may reach another hex.
Wait a turn to cross the hexes.

Visit those where you amount
at least **10** points of their suit.
You may need to wait around
before starting the pursuit,
or go visit any grounds
as a pit stop on your route.

When **ENDING YOUR TURN** each round,
a new card you may accrue.

Roll the **DICE** to know the price
you may pay along the way.

♦♥♣♠ SUITS (OR PIPS) ♠♣♥♦

You will see suits on the tiles.
They mean there's an action there.
Roll (once per turn) on the dice;
that's the minimum to pay.
The suits there may be combined.
You loose what you overpay.

TREKKING

Every tile is free to cross
along a continuous path;
in mountains, these go across
the tunnel or overpass.
But, to switch between **two** roads,
you'll need to **discard** to pass.

GETTING A ROYAL CARD

To obtain a royal card,
visit their home and discard
at least **10** points of their suit.
You must have carrots at hand
to leave one there as your mark,
end your turn, and get the loot.
Others may visit the land,
but not get the royal too.

PAYING WITH CARDS

Discard the cards when you pay
at a royal home or road.
You must leave then on display
at a place close to the board.
If you discard of the same,
you may add what they are worth.
An **Ace** is **1**; a royal, **10**.
Take your carrot off their den,
If you let a royal go.

RIDING BOATS & HORSES

Some triangles let you buy
one ride to go off the roads.
Sail across waters outside
between unconnected ports.
Or go through connected tiles
any way you wanna cross.

JOKER vs. MERCHANT sites

At **forks**, you ride when you pay,
and may only sail away
if there're no tiles on a side.
But, when you pay at a **tent**
you get a Joker instead,
which you'll discard when you ride.

ENDING YOUR TURN

You'll end up on a hex tile
or go **OFF** (see **GOING OFF**).
Get a new card from the pile,
if your rabbit's on the board.
When the pile is done, compile
all cards discarded before.

ENDING THE GAME

The first player to come back
to the castle hex (in green),
while they're holding in their hand
any **3** royal cards, wins.
Suits and letters on these cards
are not a relevant thing.

CROSSING THE UNDERGROUND

Triangle tiles with a **cave**
are gates to the **underground**.
This tile is an odd black hex,
so you must wait to get out.
Yet, if you pay at its gate,
you'll skip it and get right out.

GOING OFF

You may want to leave the land
through an unconnected road.
You won't collect a new card
when your rabbit has gone **OFF**,
but it will go **UNDERGROUND**
when your turn begins offshore.

REGULAR GAMES should include special actions for each suit.

SPADES (OR SWORDS)

Your Might

ATTACK OTHER RABBITS

Meet a rabbit and draw spades to rob them a random card, unless they draw higher then; the loser goes *OFF* the land. Observe the rules, if you take a royal card from their hand: swap the carrots; end your turn; if you have four, discard one.

Do discard all dueling cards.

DIAMONDS (OR GOLD)

Your Wealth

EXCHANGE IN J-TOWNS

The discarded cards are sold at the **J** hex of their suit. Exchange what you take for gold, as the icons tell you to. An asterisk (*) on the board means that any suit will do. When a new pile must be formed, all the towns will loose their loot.

Don't repay what's overpaid.

HEARTS (OR CUPS)

Your Charm

ENCHANT AT Q-PALACES

To visit any queen's hex, show **6** heart points in your hand. Or sneak in, if none requests you reveal them beforehand. Others may only protest as soon as you reach her land. You may also be her guest, if you're holding that queen's card.

Show these hearts, do not discard.

CLOVERS (OR CLUBS)

Your Wisdom

FLY FROM K-TOWERS

Show one card before you roll, to attempt a clover flight. If the dice is higher, fall *OFF* the board, now from the sky. Otherwise, you reach your goal: any tower you may like. Keep the clover card you showed, whether you fall or you fly.

Needless sign for neat design

ADVANCED CASTLE

You may buy all suits for gold and go on flights using leaves, also need hearts at the door to come in after you leave.

TIGHT SUITS

There should be one suit per player, and a set of roads with them.

For example, 3 contenders means 1 suit is off the game.

If you want to raise the stakes, add some rules for **ADVANCED GAMES**.

DIFFICULTY LEVELS

Choose how the story must end: a **Court** of three royal cards, a **Monarchy** (J, Q, K), or a **Tribe** with suits that match.

ADVANCED ACES

Your first ace is worth **11** and you don't need to discard. It counts as **+1** forever. Keep it in front of your hand.

ADVANCED CARROTS

You don't have to make a stop, when you carrot's on that spot.

PATRIARCHY

Have unequal value levels, from **14** down to **11**, for **Aces**, **Kings**, **Queens** & **Jacks**.

ADVANCED SUIT ACTIONS

Duelers may get back their cards, if agree to call it off. Plus, instead of using might to beat robbers *OFF* the board, you may beat them with your hearts and no one will be thrown *OFF*.

Announce an amount of gold you'd like to trade for a suit. Meet a seller on the board to reveal each other's loot. If someone's short, they're thrown *OFF*; and the deal is off to boot.

Now, when you ask to see hearts, those who bluff will get thrown *OFF*. Yet, you must first show your charm, while your rabbit's on the board. You'll be *OFF*ed and loose these card if the accusation's wrong.

Before falling *OFF* the sky when your card is not enough, you may subtract form the dice by discarding something off: the suit from where you took flight, next to the **K** on the floor.

TABLE SETUP & SAMPLE BOARD

BUILD A BOARD

The pieces will form a layout where the royals have their homes. On your first game, let's build out the one on this **SAMPLE BOARD**. Later you may learn about **BUILDING NEW BOARDS** of your own.

1

3

START THE TURNS
Each player will choose a rabbit and put it on the green hex. They will also hold their carrot; there are three for each of them. Now, decide who's the first player and the order of the turns.

2

DEAL THE CARDS
Remove all face cards and **JOKERS** to display them on a line. Now, the aces and the numbers are shuffled into a pile. Give 3 of these to each player, don't let others see their cards.

BUILDING NEW BOARDS

For a game after your first, try to build a brand new land. Start by placing the green hex and leave the black one aside. Distribute to all the rest and take turns placing the tiles. Match the tiles by fields and roads but not roads between two hexes. To add islands to the board, place a hex as independent. The black tile with caves is odd and will remain unconnected.
