

TABLERO DE EJEMPLO

ARMAR TABLEROS NUEVOS

Si tu primer partido ha terminado,
intenta hacer el reino a tu manera.
La pieza negra va en un lado aislado.
La verde grande al centro de la mesa.
Reparte el resto igual según sus lados,
y tomen turnos colocando piezas.

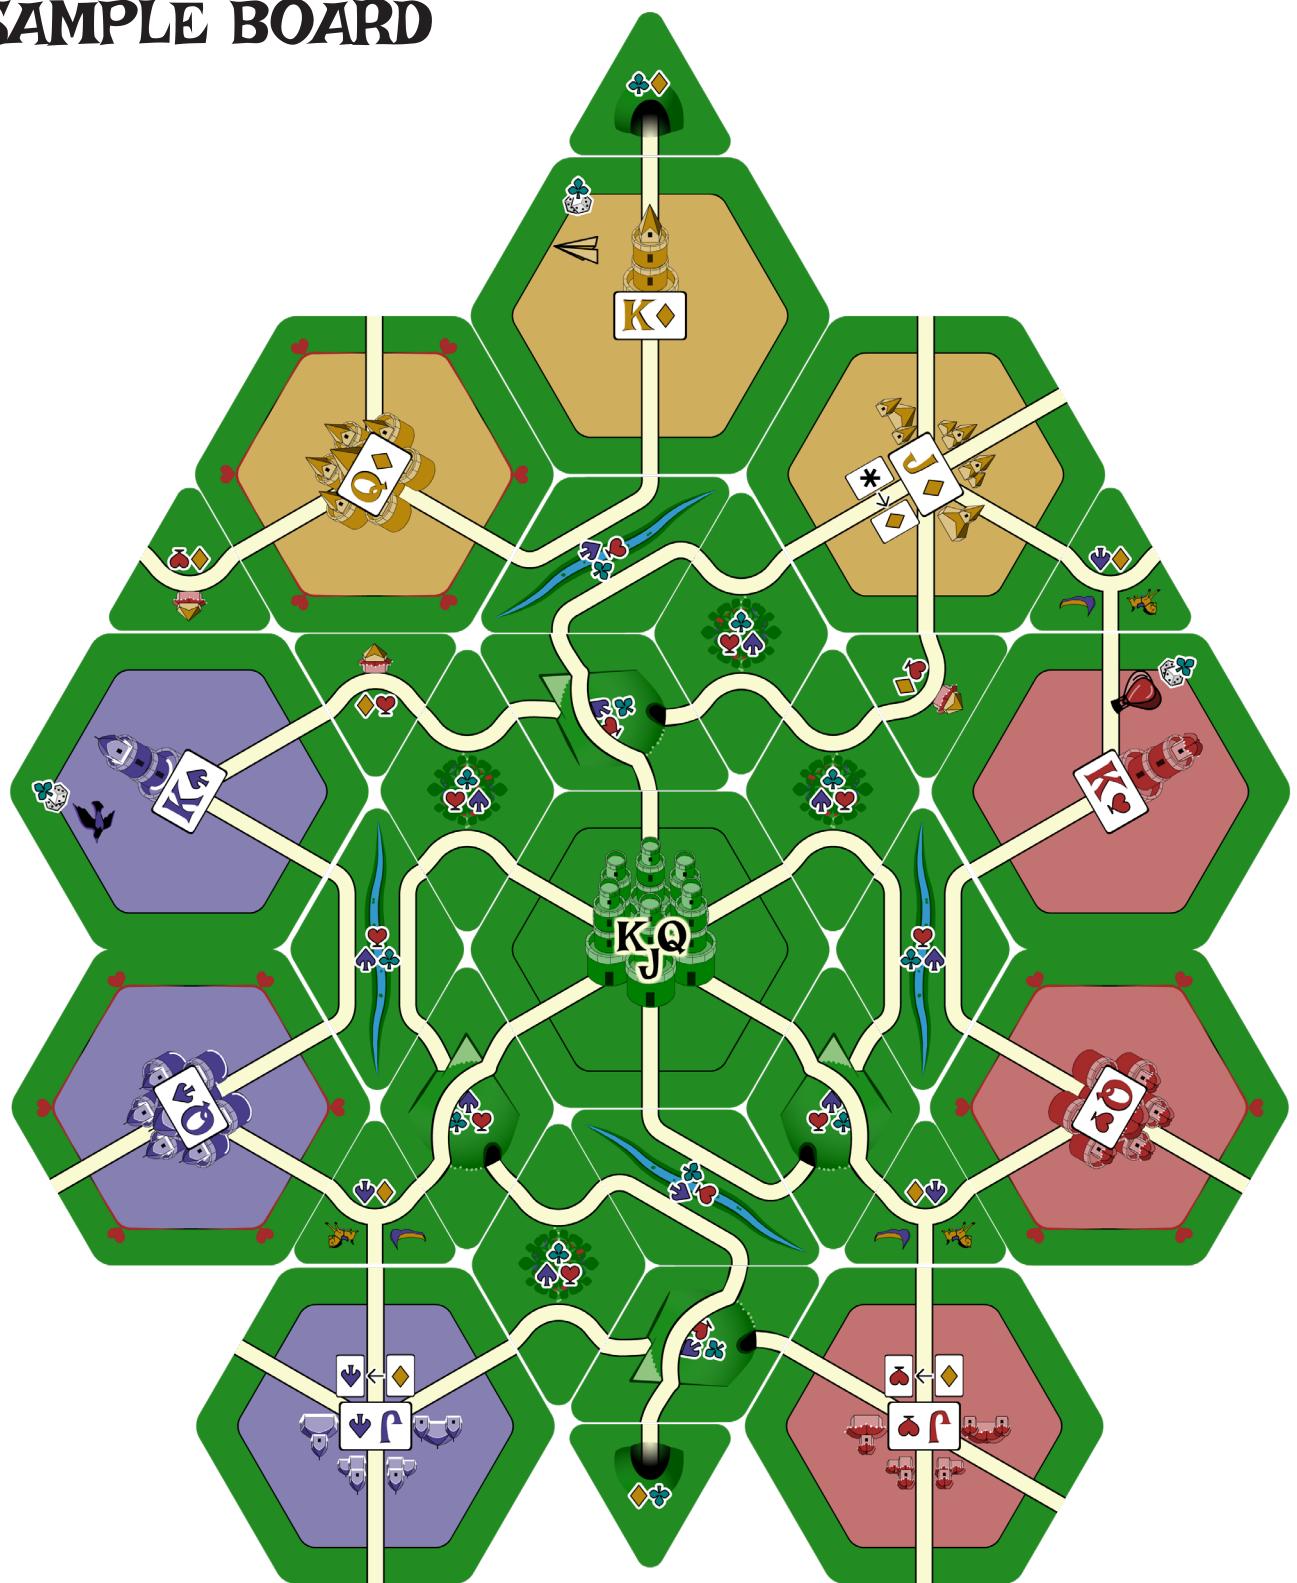

Las unes campo a campo y vía a vía,
mas no las vías entre hexagonales.
También podrás crear algunas islas,
si empiezas colocando las reales.
La pieza negra no podrás unirla;
termina sola por los laterales.

Lennino

SAMPLE BOARD

BUILDING NEW BOARDS

For the game after your first, try to build a brand new land. Start by placing the green hex, and leave the black one aside.

Distribute to all the rest and take turns placing the tiles.

Match the tiles by fields and roads, but not roads between two hexes.

To add islands to the board, place a hex as independent. The black underground is odd and will remain unconnected.

Lenino

This green section's all you need for your **FIRST GAME** to succeed.

ON YOUR TURN

To obtain a royal card, visit their home and discard at least **10** points of their suit. You must have carrots at hand to leave one there as your mark, end your turn, and get the loot. Others may visit the land, but not pay to get it too.

MOVING YOUR RABBIT

From the hexagon it's on, take your rabbit on a road through all the tiles it traverses. As the rabbit hops and treks, it will reach another hex. Wait a turn to cross the hexes.

ENDING YOUR TURN

You'll end up on a hex tile or go **OFF** (see **GOING OFF**). Get a new card from the pile, if your rabbit's on the board. When the pile is done, compile all cards discarded before.

USING CARDS

At the royal homes and roads you discard your cards to pay. Set a place close to the board where you'll leave them on display. Aces are worth **1**, no more. And a royal is worth **10**. If you let a royal go, take your carrot off their den.

ENDING THE GAME

The first player to come back to the castle hex (in green), while they're holding in their hand any **3** royal cards, wins. Suits and letters on these cards are not a relevant thing.

INSTRUCTIONS (2 to 4 players)

- 1. BUILD A BOARD**
The pieces will form the grounds where royal cards have their homes. On your first game, let's build out this map called the **SAMPLE BOARD**, and don't stress learning about **BUILDING NEW BOARDS** of your own.
- 2. DEAL THE CARDS**
Remove all face cards and jokers; the rest, shuffle to a pile. Cards are dealt in clockwise order: three cards to the first in line, four, five, and six to the others, incrementing one by one.
- 3. START THE TURNS**
Each player will put a rabbit on the green hex to play turns. They will also hold their carrots; there are three for each of them. Now, let's play until somebody gets three royals and returns.

Roll the **DICE** each turn you play for the **PRICE** that you may pay

SUITS (OR PIPS)

When you see suits on a tile, it means there's an action there. Roll (once per turn) on the dice; that's the price you'd have to pay. The suits there may be combined. You'll lose what you overpay.

RIDING BOATS & HORSES

Some triangles let you buy one ride to go off the roads. Sail across waters outside between unconnected ports. Or dash through connected tiles any way you wanna cross.

TREKKING

Every tile is free to cross along a continuous path; in mountains, these go across the tunnel or overpass. But, to switch between **two** roads, you'll need to **discard** to pass.

JOKER vs. MERCHANT

At **forks**, you ride when you pay, and may only sail away if there're no tiles on a side. But, when you pay at a **tent**, you'll get a Joker instead, which you'll discard when you ride.

Your **FUTURE GAMES** should include special actions for each suit.

SPADES (OR SWORDS)
Your Might

ATTACK OTHER RABBITS
Meet a rabbit and draw spades to rob them a random card, unless they draw higher than; the loser goes **OFF** the land. Observe the rules, if you take a royal card from their hand: swap the carrots; end your turn; if you have four, discard one.

Do discard all dueling cards.

DIAMONDS (OR GOLD)
Your Wealth

EXCHANGE IN J-TOWNS
The discarded cards are sold at the **J** hex of their suit. Exchange what you take for gold, as the icons tell you to. An asterisk (*) on the board means that any suit will do. When a new pile must be formed, all the towns will loose their loot.

Don't repay what's overpaid.

HEARTS (OR CUPS)
Your Charm

ENCHANT AT Q-PALACES
To visit any queen's hex, show **6** heart points in your hand. Or sneak in, if none requests you reveal them beforehand. Others may only protest as soon as you reach her land. You may also be her guest, if you're holding that queen's card.

Show these hearts, do not discard.

CLOVERS (OR CLUBS)
Your Wisdom

FLY FROM K-TOWERS
Show one card before you roll, to attempt a clover flight. If the dice is higher, fall **OFF** the board, now from the sky. Otherwise, you reach your goal: any tower you may like. Keep the clover card you showed, whether you fall or you fly.

Needless sign for neat design

If you want to raise the stakes, add some rules for **ADVANCED GAMES**.

DIFFICULTY LEVELS

Choose how the story must end: a **Court** of three royal cards, a **Monarchy** (**J**, **Q**, **K**), or a **Tribe** with suits that match.

ADVANCED SUIT ACTIONS

A ADVANCED ACES

Your first ace is worth **11** and you don't need to discard. It counts as **+1** forever. Keep it in front of your hand.

ADVANCED CARROTS

Now, when you ask to see hearts, those who bluff will get thrown **OFF**. Plus, instead of using might to beat robbers **OFF** the board, you may beat them with your hearts and no one will be thrown **OFF**.

TIGHT SUITS

There should be one suit per player, and a set of roads with them. For example, 3 contenders means 1 suit is off the game.

PATRIARCHY

Announce an amount of gold you'd like to trade for a suit. Meet a seller on the board to reveal each other's loot. If someone's short, they're thrown **OFF**, and the deal is off to boot.
