## **ARMAR TABLEROS NUEVOS**

Si tu primer partido ha terminado,  
intenta hacer el reino a tu manera.  
La pieza negra va en un lado aislado.  
La verde grande al centro de la mesa.  
Reparte el resto igual según sus lados,  
y tomen turnos colocando piezas.

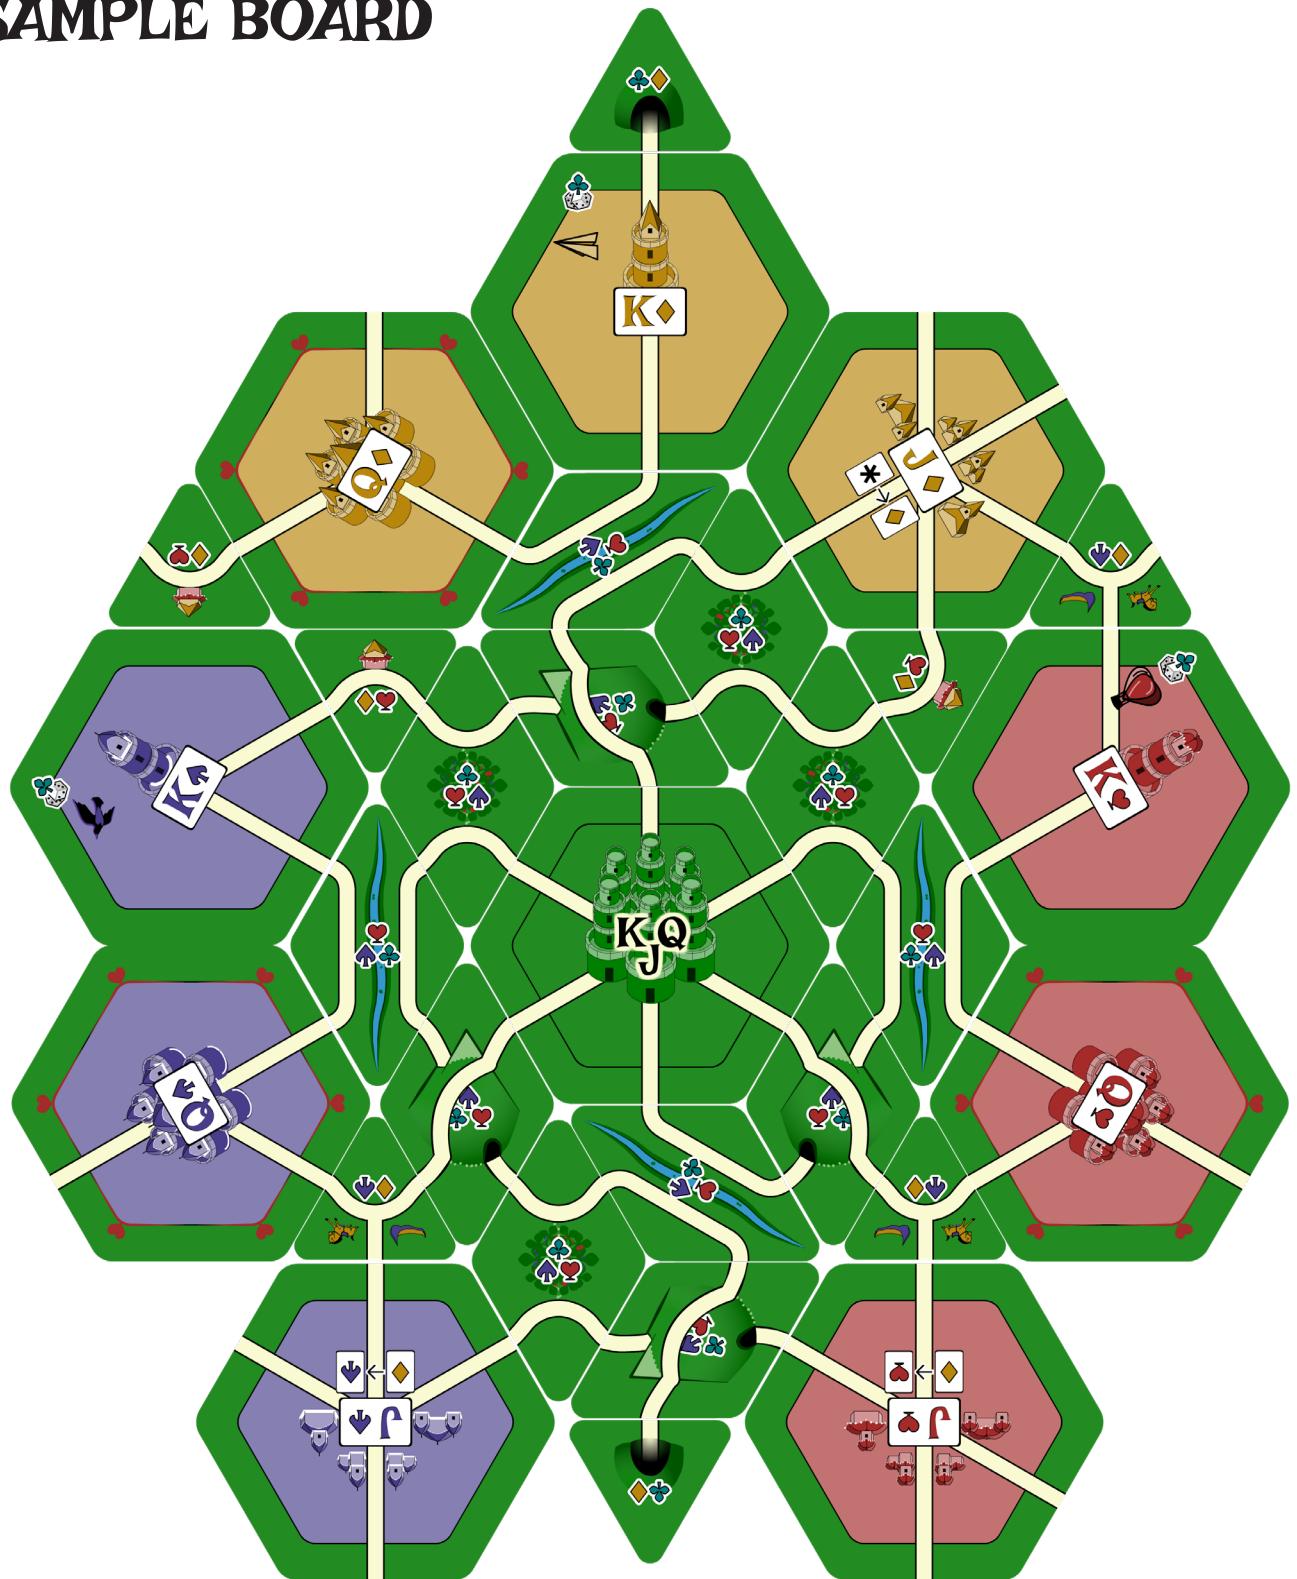

Las unes campo a campo y vía a vía,  
mas no las vías entre hexagonales.  
También podrás crear algunas islas,  
si empiezas colocando las reales.  
La pieza negra no podrás unirla;  
termina sola por los laterales.

## SAMPLE BOARD

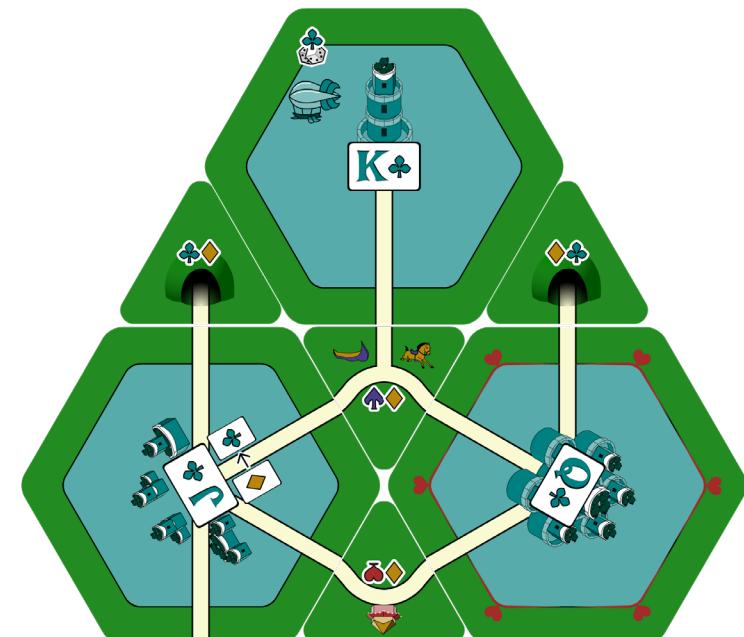

### BUILDING NEW BOARDS

For the game after your first, try to build a brand new land. Start by placing the green hex, and leave the black one aside.

Distribute to all the rest and take turns placing the tiles.

Match the tiles by fields and roads, but not roads between two hexes.

To add islands to the board, place a hex as independent. The black underground is odd and will remain unconnected.

This green section's all you need for your **FIRST GAME** to succeed.

**ON YOUR TURN**

To obtain a royal card, visit their home and discard at least **10** points of their suit. You must have carrots at hand to leave one there as your mark, end your turn, and get the loot. Others may visit the land, but not pay to get it too.

You may need to wait around before starting the pursuit, or go visit any grounds as a pit stop on your route. When your turn ends every round, a new card you may accrue.

**MOVING YOUR RABBIT**

From the hexagon it's on, take your rabbit on a road through all the tiles it traverses. As the rabbit hops and treks, it will reach another hex. Wait a turn to cross the hexes.

**ENDING YOUR TURN**

You'll end up on a hex tile or go **OFF** (see **GOING OFF**). Get a new card from the pile, if your rabbit's on the board. When the pile is done, compile all cards discarded before.

**USING CARDS**

At the royal homes and roads you discard your cards to pay. Set a place close to the board where you'll leave them on display. Aces are worth **1**, no more. And a royal is worth **10**. If you let a royal go, take your carrot off their den.

**ENDING THE GAME**

The first player to come back to the castle hex (in green), while they're holding in their hand any **3** royal cards, wins. Suits and letters on these cards are not a relevant thing.

**INSTRUCTIONS** (2 to 4 players)

- 1. BUILD A BOARD**  
The pieces will form the grounds where royal cards have their homes. On your first game, let's build out this map called the **SAMPLE BOARD**, and don't stress learning about **BUILDING NEW BOARDS** of your own.
- 2. DEAL THE CARDS**  
Remove all face cards and jokers; the rest, shuffle to a pile. Cards are dealt in clockwise order: three cards to the first in line, four, five, and six to the others, incrementing one by one.
- 3. START THE TURNS**  
Each player will put a rabbit on the green hex to play turns. They will also hold their carrots; there are three for each of them. Now, let's play until somebody gets three royals and returns.

**KQJ**

To set prices on the way, roll the **DICE** each turn you play.

**CROSSING THE UNDERGROUND**

Triangle tiles with a **cave** are gates to the **underground**. This tile is an odd black hex, so you must wait to get out. Yet, if you pay at its gate, you'll skip it and get right out.

**RIDS BOATS & HORSES**

Some triangles let you buy one ride to go off the roads. Sail across waters outside between unconnected ports. Or go through connected tiles any way you wanna cross.

**GOING OFF**

You may want to leave the land through an unconnected road. You won't collect a new card when your rabbit has gone **OFF**, but it will go **UNDERGROUND** when your turn begins offshore.

**SPADES (OR SWORDS)**  
Your Might

**ATTACK OTHER RABBITS**

Meet a rabbit and draw spades to rob them a random card, unless they draw higher than; the loser goes **OFF** the land. Observe the rules, if you take a royal card from their hand: swap the carrots; end your turn; if you have four, discard one.

Do discard all dueling cards.

**DIAMONDS (OR GOLD)**  
Your Wealth

**EXCHANGE IN J-TOWNS**

The discarded cards are sold at the **J** hex of their suit. Exchange what you take for gold, as the icons tell you to. An asterisk (\*) on the board means that any suit will do. When a new pile must be formed, all the towns will loose their loot.

Don't repay what's overpaid.

**HEARTS (OR CUPS)**  
Your Charm

**ENCHANT AT Q-PALACES**

To visit any queen's hex, show **6** heart points in your hand. Or sneak in, if none requests you reveal them beforehand. Others may only protest as soon as you reach her land. You may also be her guest, if you're holding that queen's card.

Show these hearts, do not discard.

**CLOVERS (OR CLUBS)**  
Your Wisdom

**FLY FROM K-TOWERS**

Show one card before you roll, to attempt a clover flight. If the dice is higher, fall **OFF** the board, now from the sky. Otherwise, you reach your goal: any tower you may like. Keep the clover card you showed, whether you fall or you fly.

Needless sign for neat design

**DIFFICULTY LEVELS**

Choose how the story must end: a **Court** of three royal cards, a **Monarchy** (**J**, **Q**, **K**), or a **Tribe** with suits that match.

**ADVANCED SUIT ACTIONS**

**Duelers** may get back their cards, if agree to call it off. Plus, instead of using might to beat robbers **OFF** the board, you may beat them with your hearts and no one will be thrown **OFF**.

**ADVANCED CASTLE**

Your first ace is worth **11** and you don't need to discard. It counts as **+1** forever. Keep it in front of your hand.

**ADVANCED CARROTS**

You don't have to make a stop, when you carrot's on that spot.

**TIGHT SUITS**

There should be one suit per player, and a set of roads with them. For example, 3 contenders means 1 suit is off the game.

**PATRIARCHY**

Have unequal value levels, from **14** down to **11**, for **Aces, Kings, Queens & Jacks**.
